## Florista

Sanem has been one of the main manufacturers table cloth in the Southern European region for the last decade. The main brand of Sanem table cloth product is the Florista. Sanem has developed a new modern facility with computerized digital graphics, state of the art print shop, new color development department, quality control and packaging division.

Sanem uses the highest quality materials and offers a variety of exciting patterns and colors. We can package our product in different sizes to meet your specific requirements.

Florista has wide color choices and designs. Also our designs have been increasing day by day. We offer several new designs developed at Sanem or can developed customized graphics based on your designs or sketch. A great variety of combination colors and stain resistant surface of the Florista range make table cloth not only beautiful, but also beautifully practical. Florista has vital and striking colors and elegance design patterns.

Sanem's new manufacturing facility has dedicated management system and quality control process to assure top quality products delivered in time to our customers.

We developed the colors, design patterns, prints and package the Florista products in our own factory to guarantee the highest quality product manufacturing and delivery on time to our customers. We will present the collection of Florista products in several international textile fairs, including the Heimtextil Fair. We will be glad to send you a sample of Florista products.
